Independent Auditor's Report

To the Shareholders of Sappe Public Company Limited

Opinion

I have audited the consolidated and separate financial statements of Sappe Public Company Limited and its subsidiaries (the "Group") and of Sappe Public Company Limited (the "Company"), respectively, which comprise the consolidated and separate statements of financial position as at 31 December 2018, the consolidated and separate statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 31 December 2018 and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements* section of my report. I am independent of the Group and the Company in accordance with the Code of Ethics for Professional Accountants issued by the Federation of Accounting Professions that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate financial statement of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statement as a whole, and in forming our opinion thereon, and I do not provide a separate opinion on these matters.

Valuation of inventories

Refer to Notes 3 (g) and 9 to the consolidated and separate financial statements.

The key audit matter

As there is high competition in both local and overseas markets for health and functional drinks, new products are continuously launched to attract customers and fulfil their changing needs. Consequently, the products of the Group and the Company have short lives, their sales and selling prices are subject to the market situation, and long-outstanding inventories may result. The Group's and the Company's inventories are stated at the lower of cost and net realisable value which involves management's judgment. This is an area of focus in my audit.

How the matter was addressed in the audit

My audit procedures included:

- Inquiry of the management to obtain an understanding of the Group's and the Company's policy in relation to setting provision for inventories and reviewing the Group's and the Company's compliance with this policy;
- Understanding and evaluating the design and effectiveness of internal controls relevant to inventory management and attending inventory counts and observing the condition of inventories;
- Testing the accuracy of inventory aging by checking samples to relevant supporting documents;
- Testing the valuation of inventories by comparing their costs against their expected net realisable values less relevant selling expenses, and checking samples of the related supporting documents; and
- Considering the adequacy of disclosure in accordance with the financial reporting standard.

Accrued promotional expenses

Refer to Notes 3 (p) and 17 to the consolidated and separate financial statements.

The key audit matter

There is high competition in both local and overseas markets for health and functional drinks. The Group offers customers several types of promotional offers to compete with its competitors. The Group has accrued promotional expenses for these offers based on statistical information, and management's judgment on the behaviour of both local and overseas customers, and the type of offer. This is an area of focus in my audit.

How the matter was addressed in the audit

My audit procedures included:

- Inquiry of the management to obtain an understanding of the Group's policy in relation to accruing promotional expenses and reviewing the Group's compliance with this policy;
- Understanding and evaluating the design and effectiveness of internal controls relevant to the sales process and estimation of accrued promotional and marketing expenses;
- Testing the calculation of accrued promotional expenses by checking to samples of related supporting documents;
- Testing that accrued promotional expenses related to offers active as at year end and in the year by checking to samples of related supporting documents; and
- Considering the adequacy of disclosure in accordance with the financial reporting standard.

Impairment of investment in indirect associates

Refer to Notes 3 (a), 10 and 11

The key audit matter

In 2016, The Group has an investment in indirect associates which has accumulated losses. The Company's management considered that there is an indication of impairment from the uncertainty of current economic which may affect to the indirect associates of the Company that are manufacturing and distributing coconut products. The operating results of indirect associates may be significantly less than the indirect associates company's plan. As a result, the future cash flows may lower than the carrying amount of investments in indirect associates and investments in subsidiaries and impairment of investment is required to set up.

Due to the materiality of the transactions and the significant judgment of management involved in the impairment assessment of investments considers whether the carrying amount of the assets exceeds the recoverable amount, the estimated future cash flows, growth rates and the discount rates. Consequently, I consider that this is a significant matter.

How the matter was addressed in the audit

My audit procedures included:

- Inquiring of management to obtain an understanding of the process used for identifying any indications of impairment for investment in indirect associates, assessing the reasonableness of the expected recoverable amounts and preparing cash flow projection from management approved budget;
- Considering the factor which indicated to impact on investment in indirect associates;
- Assessing the reasonableness of the future cash flows by comparing historical operating result, current operating result and future plan of indirect associates;
- Considering the reasonableness of assumptions of revenue growth rate compare with the economic growth rate and the indirect associates's business plan;
- Assessing the suitability of the discount rate applied to the future cash flows and benchmarked this against other companies in the industry;
- Performing the sensitivity analysis of key assumption; and
- Considering the adequacy of disclosure in accordance with the financial reporting standard.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that correction be made.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2 Basis of preparation of the financial statements

(a) Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (TFRS); guidelines promulgated by the Federation of Accounting Professions ("FAP"); the applicable rules and regulations of the Thai Securities and Exchange Commission.

The FAP has issued the new and revised TFRS effective for annual accounting period beginning on or after 1 January 2018. The initial application of these new and revised TFRS has resulted in changes in certain of the Group's accounting policies. These changes have no material effect on the financial statements.

In addition to the above new and revised TFRS, the FAP has issued a number of new and revised TFRS which are not yet effective for current periods. The Group has not early adopted these standards in preparing these financial statements. Those new and revised TFRS that are relevant to the Group's operations are disclosed in note 33

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items.

Items

Debt securities held for trading Share-based payment Defined benefit liability

Measurement bases

Fair value
Fair value
Present value of the defined benefit obligate
as explained in Note 3 (n)

(c) Functional and presentation currency

The financial statements are prepared and presented in Thai Baht, which is the Company's functional currency.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about assumption and estimation uncertainties that have a significant risk of resulting in a material adjustments to the amounts recognised in the carrying amounts of assets and liabilities within the year ending 31 December 2019 is included in the following notes:

| Note 3 (t) and 15 | Recognition of deferred tax assets: availability of future taxable profit against |
|-------------------|---|
| | which tax losses carried forward can be used |
| Note 10 | Measurement of goodwill arising from acquisition of investment in associates |
| Note 18 | Measurement of defined benefit obligations: key actuarial assumptions |
| Note 20 | Measurement of share-based payments and |
| Note 29 | Valuation of financial instruments. |

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including level 3 fair values, and reports directly to CFO.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these such valuations meet the requirements of TFRS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Group's Audit Committee.

When measuring the fair value of an asset or liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in the fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices includes in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different level of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

| • Note 10 | Identified assets and liabilities assumed from acquiring of investment |
|-----------------------------|--|
| | in an associate |
| Note 20 | Warrants |

• Note 29 Financial instruments

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in associates.

Business combinations

The Group applies the acquisition method for all business combinations when control is transferred to the Group, as describe in subsidiaries section, other than those with entities under common control.

The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another.

Goodwill is measured as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date. Any gain on bargain purchase is recognised in profit or loss immediately.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration of the acquiree that are replaced mandatorily in the business combination. If a business combination results in the termination of pre-existing relationships between the Group and the acquiree, then the lower of the termination amount, as contained in the agreement, and the value of the off-market element is deducted from the consideration transferred and recognised in other expenses.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

The Group measures any non-controlling interest at its proportionate interest in the identifiable net assets of the acquiree.

Transaction costs that the Group incurs in connection with a business combination, such as legal fees, other professional and consulting fees are expensed as incurred.

Acquisitions from entities under common control

Business combination under common control are accounted for using a method similar to the pooling of interest method. Under that method the acquirer recognizes assets and liabilities of the acquired businesses at their carrying amounts in the consolidated financial statements of the ultimate parent company at the moment of the transaction. The difference between the carrying amount of the acquired net assets and the consideration transferred is recognized as surplus or discount from business combinations under common control in shareholder's equity. The surplus or discount will be transferred to retained earnings upon divestment of the businesses acquired.

The results from operations of the acquired businesses will be included in the consolidated financial statements of the acquirer from the beginning of the comparative period or the moment the businesses came under common control, whichever date is later, until control ceases.

Subsidiaries

A subsidiary is an entity controlled by the Group. The Group control an entity when it is exposed to or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The accounting policies of subsidiaries are changed where necessary to align them with the policies adopted by the Group. Losses applicable to non-controlling interests in a subsidiary are allocated to non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

Non-controlling interests

At the acquisition date, the Group measures any non-controlling interest at its proportionate interest in the identifiable net assets of the acquiree.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Interests in equity-accounted investees

The Group's interests in equity-accounted investees comprise interests in associates.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates are accounted for using the equity method. They are recognised initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity—accounted investees, until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(b) Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rates at the reporting date.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency at the exchange rates at the dates of the transactions.

Foreign currency differences are generally recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations are translated to Thai Baht at the foreign exchange rates ruling at the reporting date.

The revenues and expenses of foreign operations are translated to Thai Baht at rates approximating the foreign exchange rate ruling at the dates of the transactions.

Foreign exchange differences arising on translation are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity until disposal of the investment, except to extent that the translation difference is allocated to non-controlling interest.

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to non-controlling interests.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and presented in the foreign currency translation reserve in equity until disposal of the investment.

(c) Derivative

Derivatives are used to manage exposure to foreign exchange and interest rate risks arising from operational, financing and investment activities. Derivatives are not used for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

(d) Hedging

Hedge of future foreign currency transactions

Gains and losses from forward exchange contracts used to hedge anticipated future currency transactions are deferred until the forecasted transaction occurs. Where the hedged item is a recognised asset or liability, it is translated at the contracted forward rates.

Sappe Public Company Limited and its Subsidiaries Notes to the financial statements

For the year ended 31 December 2018

Foreign currency assets and liabilities hedged by forward exchange contracts are translated to Thai Baht at the contracted forward exchange rates.

(e) Cash and cash equivalents

Cash and cash equivalents in the statements of cash flows comprise cash balances, call deposits and highly liquid short-term investments. Bank overdrafts that are repayable on demand are a component of financing activities for the purpose of the statement of cash flows.

(f) Trade and other accounts receivable

Trade and other accounts receivable are stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is calculated as follows:

Finished goods

- at standard cost which approximates current production cost,

at weighted average cost.

Work in progress

- at standard cost which includes raw materials, variable labour and

manufacturing overhead costs and

Raw materials, spare parts, factory supplies and others

- at weighted average cost

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity and is calculated using standard cost adjusted to approximate weighted average cost.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

(h) Investments

Investments in associates and subsidiaries

Investments in associates and subsidiaries in the separate financial statements of the Company are accounted for using the cost method. Investments in associates in the consolidated financial statements are accounted for using the equity method.

Investments in other debt securities

Debt securities held for trading are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in profit or loss.

The fair value of financial instruments classified as debt securities held for trading is determined as net assets value at the reporting date.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount is recognised in profit or loss.

If the Group disposes of part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

(i) Property, plant and equipment

Recognition and measurement

Owned assets

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised in profit or loss.

Leased assets

Leases in terms of which the Group substantially assumes all the risk and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance leases is capitalised at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the profit or loss.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Sappe Public Company Limited and its Subsidiaries Notes to the financial statements

For the year ended 31 December 2018

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. The estimated useful lives are as follows:

| Land improvement | 5-10 | years |
|--|------|-------|
| Buildings and building improvement | 5-20 | years |
| Machinery and equipment | 3-15 | years |
| Furniture, fixtures and office equipment | 3-20 | years |
| Vehicles | 5-8 | years |

No depreciation is provided on freehold land, land reclamation recoded as part of land improvement and assets under construction.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(j) Intangible assets

Intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated brands, is recognised in profit or loss as incurred.

Amortisation

Amortisation is based on the cost of the asset, or other amount substituted for cost, less its residual value.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative periods are as follows:

Software licences 3-10 years Trademarks and copyrights Agreement life

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(k) **Impairment**

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

Calculation of recoverable amount

The recoverable amount of a non-financial asset is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss.

Impairment losses recognised in prior periods in respect of other non-financial assets are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(l) Interest-bearing liabilities

Interest-bearing liabilities are recognised initially at fair value less attributable transaction charges. Subsequent to initial recognition, interest-bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in profit or loss over the period of the borrowings on an effective interest basis.

(m) Trade and other accounts payable

Trade and other accounts payable are stated at cost.

(n) Employee benefits

Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

Defined benefit plans

The Group's net obligation in respect of defined benefit plan is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Group determines the interest expense on the net defined benefit liability for the period applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which their arise.

Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits

Short-term employee benefit obligations are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(o) Share-based payments

The grant-date fair value of equity-settled share-based payment awards granted to employees is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service and non-market performance conditions at vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

(p) Provision

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(q) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts and volume rebates.

Sale of goods

Revenue is recognised in profit or loss when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Interest income

Interest income is recognised in profit or loss as it accrues.

(r) Finance costs

Interest expenses and similar costs are charged to profit or loss for the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial periods of time to be prepared for its intended use or sale.

(s) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Group the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Group's incremental borrowing rate.

(t) Income tax

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current tax and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(u) Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and warrants granted to employees.

Sappe Public Company Limited and its Subsidiaries Notes to the financial statements

For the year ended 31 December 2018

(v) Segment reporting

Segment results that are reported to the Group's CEO (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly assets and liabilities segment.

4 Related parties

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control or joint control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

Relationships with subsidiaries and associates are described in notes 1, 10 and 11. Relationship with key management and other related parties were as follows:

| Name of entities | Country of incorporation/ nationality | Nature of relationships |
|------------------------------------|---------------------------------------|--|
| Sappe Corporation Co., Ltd. | Thailand | Common shareholder |
| Toyox Trading (Thailand) Co., Ltd. | Thailand | Common shareholder |
| Hayashi Products Co., Ltd. | Thailand | Common shareholder |
| 3T Engineering Co., Ltd. | Thailand | Common shareholder |
| On Fifth Co., Ltd. | Thailand | Common shareholder |
| Italmarket Slovakia, a.s. | Slovakia | Held by the shareholders in a subsidiary |
| Slovakia Promotion s.r.o. | Slovakia | Held by the shareholders in a subsidiary |
| Bangkok Bestbuy Group Co., Ltd. | Thailand | One of family member of the company's director is a director. |
| Group of Persons Ruckariyapong | Thailand | Held by key management personnel |
| Key management personnel | Thailand | Personnel who have authority and responsibility for planning, ordering and controlling for all direct and indirect activities including directors of the Group. (regardless of management role) |

The pricing policies for transactions with related parties are explained further below:

| Transactions | Pricing policies |
|--|---|
| Sale of goods | Market price or contractually agreed rate |
| Other income | At agreed rate |
| Purchase of machinery and equipment | Market price or contractually agreed rate |
| Rental and other expenses | At agreed rate |
| Distribution costs and administrative expenses | At agreed rate |
| Key management personnel compensation | Approved by directors |
| Consulting fee | Contractually agreed rate |
| Interest income | Contractually agreed rate |
| Interest expense | Contractually agreed rate |
| | |

The memorandum of association of a subsidiary states that the subsidiary has to pay dividends from net profit of Euro 109,076.03 to a shareholder. The first gainer is a shareholder and then the rest of the profit will be allocated according to the proportion of the investment held. As of 31 December 2018, the management considered to recognise a provision following the regulations of the subsidiary of Baht 4.05 million (2017: Baht 4.26 million) under "Other non-current liabilities" in the consolidated financial statements.

Significant agreements with related parties

(a) Land lease agreement

The Company has a land lease agreement with related parties under which the parties agree that the Company has the right to lease the land for 20 years ended year 2033 and the Company is committed to pay an initial deposit and the monthly land lease. Each year the parties will add 3.33% of the latest monthly land lease. The term of this agreement is continued unless either party gives written notice at least 90 days prior to the effective date of termination. On 19 May 2014, the Company entered into an amendment memorandum to revise the above rate of land lease from 3.33% per year to 2% per year. However, after three years of this agreement, the Company has the option to purchase this land from the leasor at the average of the appraised values as determined by independent appraisers.

(b) Land and building lease agreement

The Company has a land and building lease agreement with a related party under which the parties agree that the Company has the right to lease the land and building for 3 years ended year 2019. In consideration thereof, the Company is committed to pay an initial deposit and the monthly land and building lease. Each year the parties will add 3% of the latest monthly land and building lease. The term of this agreement is continued until either party gives written notice at least 30 days prior to the effective date of termination.

None of the Group's associates is not publicly listed and consequently do not have published price quotations.

In 2018, the Group reviewed the recoverable amount of investment in indirect associates and found that the recoverable amount of investment in indirect associates as at 31 December 2018 exceeded its carrying amount. For the purpose of impairment testing in investments in associates, the recoverable amount of indirect associates was based on value-in-use. The value-in-use calculations apply a discounted cash flow model using cash flow projections based on financial budgets and forecasts approved by management covering 5 years period. Cashflow are estimated using an average growth of 12.8%. The terminal growth rate use at 0% for conservative purpose. The discount rate of 9.5% applied to the cash flow projections reflect management's estimates of the risks specific to the respective indirect associates at the date of the assessment. The values assigned to the key assumptions represent management's assessment of future trends in the relevant industries and have been based on historical data from both external and internal sources.

Post-employment benefits

The Group and the Company operate a defined benefit pension plan based on the requirement of Thai Labour Protection Act B.E.2541 (1998) to provide requirement benefits to employees based on pensionable remuneration and length of service.

The defined benefit plans expose the Group to actuarial risks, such as longevity risk and interest rate.

Movement in the present value of the defined benefit obligations.

Other long-term employee benefit

Other long-term employee benefit was based on the length of service of employees and actuarial assumptions as basis to calculate the obligations.

Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

| | Consol | idated | Sepa | rate |
|----------------------|----------------------|--------|----------------------|--------|
| | financial statements | | financial statements | |
| | 2018 | 2017 | 2018 | 2017 |
| | | | (%) | |
| Discount rate | 2.38 | 2.38 | 2.38 | 2.38 |
| Future salary growth | 5 | 5 . | 5 | 5 |
| Employee turnover | 0 - 50 | 0 - 50 | 0 - 50 | 0 - 50 |

Assumptions regarding future mortality have been based on published statistics and mortality tables.

As at 31 December 2018, the weighted-average duration of the defined benefit obligation was 21.85 years (2017: 21.85 years)

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

| | Consolidated financial statements | | Separate financial statements | |
|------------------------------------|-----------------------------------|------------|-------------------------------|----------|
| | Increase | Decrease | Increase | Decrease |
| | | (in thousa | ınd Baht) | |
| At 31 December 2018 | | | | |
| Discount rate (1% movement) | (963) | 1,097 | (963) | 1,097 |
| Future salary growth (1% movement) | 1,163 | (1,041) | 1,163 | (1,041) |
| Employee turnover (1% movement) | (1,124) | 818 | (1,124) | 818 |
| Future mortality (1 year) | 58 | (58) | 58 | (58) |
| As at 31 December 2017 | | | | |
| Discount rate (1% movement) | (733) | 838 | (733) | 838 |
| Future salary growth (1% movement) | 74 1 | (658) | 741 | (658) |
| Employee turnover (1% movement) | (858) | 644 | (858) | 644 |
| Future mortality (1 year) | 44 | (44) | 44 | (44) |

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

On 13 December 2018, the National Legislative Assembly passed a bill amending the Labor Protection Act to include a requirement that an employee who is terminated after having been employed by the same employer for an uninterrupted period of twenty years or more, receives severance payment of 400 days of wages at the most recent rate. The Group will amend its retirement plan in the period in which the amendment will have become law and is announced in the Royal Gazette. As a result of this change, the provision for retirement benefits as at that future period end as well as past service cost recognized during that period in the consolidated and the separate financial statements is estimated to increase by an amount of approximately Baht 4.70 million

In the Annual General Meeting of Shareholders, held on 26 April, 2018, the shareholders approved the followings;

- 1) Decrease the registered capital of the Company from 304,620,000 shares with a par value of Baht 1 per share to 304,368,080 shares with a par value of Baht 1 per share for cancelling the reserve of 251,920 shares for the exercise of warrant rights to purchase the Company's ordinary shares with a par value of Baht 1 per share. The Company registered the decrease with the Ministry of Commerce on 25 May 2018.
- 2) Increase of the registered capital from the registered capital 304,368,080 shares with a par value of Baht 1 per share to 308,438,080 shares with a par value of Baht 1 per share by issuing 4,070,000 new ordinary shares with a par value of Baht 1 per share, equivalent to Baht 4,070,000. The Company registered the increase with the Ministry of Commerce on 31 May 2018.

Share premium

Section 51 of the Public Companies Act B.E. 2535 requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). Share premium is not available for dividend distribution.

20 Warrants

1) The issuance of warrants no.1 ("Warrant" or "SAPPE-WA")

On 30 December 2017, warrants were exercised by the Company's management and employees. The Company received cash for paid-up capital in amount of Baht 13.04 million. On 11 January 2018, share capital comprising 1,288,142 shares at par value Baht 1 per share have been registered with the Ministry of Commerce and paid-up share capital has thereby increased from Baht 303,079,938 to Baht 304,368,080. In order that, the warrants to purchase the Company's ordinary shares No.1 (SAPPE-WA) which were issued and offered to management and employees of the Company expired in June 2018. The management and employees have exercised their warrants in proportion to the number of shares they have been granted.

2) The issuance of warrants no. 2 ("Warrant" or "SAPPE-WA2")

At the annual general shareholders' meeting of the Company held on 26 April 2018, the shareholders passed resolutions to approve the issuance of 4,070,000 units of warrants with a term of 4 years ("Warrant" or "SAPPE-WA2") to qualifying management and employees of the Company. The warrants will be granted on the last working day of June and December of each year. The first exercise date is 12 months after issuing the warrants and the holders must have complied with all terms of the exercising right.

Sappe Public Company Limited and its Subsidiaries Notes to the financial statements

For the year ended 31 December 2018

The warrants have been allocated to the management (including directors) and employees of the Company. The exercise ratio is 1 warrant per 1 new ordinary share, and the exercise price is Baht 20.56 per share (unless the adjustment of the exercising right). The terms of the exercise and the fair value of the share options has the detail as follow:

| Description | Details |
|--------------------------------|--|
| Type of warrants | Warrants to purchase ordinary shares of Sappe Public Company Limited issued to the management (including the executive directors) and employees of the Company at the second time (SAPPE-W A2), specification of the holder's name and non-transferable unless the transfer of inheritance or transfer to heirs or representatives by law. |
| Issue and sell quantities | 4,070,000 units |
| Terms of warrants | 4 years from the issuance date of warrant |
| Exercise ratio | 1 warrant to 1 ordinary share unless there is a change in exercise ratio under the change conditions. |
| Exercise price | Baht 20.56 per share |
| Exercise period and proportion | The holders of SAPPE-WA2 can exercise the warrants to purchase ordinary shares of the Company after holding it for the specified period. The first exercise date is 12 months after issuing the warrants. The details are as follows: |

| The period of holding the | The right that can be |
|---------------------------|---------------------------|

| 42 | 100% |

Fair value of warrants

Baht 6.9 - 8.3

The purchasing condition requires that the employees must have employee status or have a termination on each date of exercising the right.

The fair value of the warrant is measured using a Black-Scholes Model with the following financial assumptions:

| Grant date share price (Baht) | 26.00 |
|---|--------------|
| Exercise price warrant (Baht) | 20.56 |
| Historical volatility in 3 years and 3 months at the allotment date | |
| (per semi-annual) | 35.00% |
| Historical dividend yield | 2.60% |
| Risk free interest rate at the allotment date | 1.18 - 1.85% |

Expenses for share-based payment transactions in the consolidated and separate financial statements for the year ended 31 December 2018 were Baht 13.98 million (2017: Baht 1.59 million).

Movements during the year ended 31 December 2018 and 2017 of warrants were as follows:

Consolidated / Separate financial statements

| | 201 | 2018 | | 17 |
|----------------------|------------------------|--|------------------------|--|
| | Average exercise price | | Average exercise price | |
| | per share (Baht) | Option shares (in thousand shares) | per share (Baht) | Option shares (in thousand shares) |
| At 1 January | 1.82 | 1,288 | 3.46 | 2,580 |
| Issuance of warrants | 7.72 | 4,070 | - | - |
| Eexercise | 9.12 | (1,288) | 5.11 | (1,292) |
| At 31 December | 7.72 | 4,070 | 1.82 | 1,288 |

21 Reserves

Reserves comprise:

Appropriations of profit and/or retained earnings

Legal reserve

Section 116 of the Public Companies Act B.E. 2535 requires that a public company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

Other components of equity

Currency translation differences

The currency translation differences account within equity relates to foreign currency differences arising from the translation of the financial statements of foreign operations to Thai Baht.

Defined benefit plan actuarial gains (losses)

The defined benefit plan actuarial gains (losses) account within equity comprises experience adjustments which are the effects of differences between the previous actuarial assumptions and what has actually occurred and the effects of changes in actuarial assumptions.

Differences arising from common control transactions

The differences arising from common control transactions within equity represents the excess of the book values of certain entities or businesses under common control over their cost as of the date of their acquisition. The reserve is non-distributable and will be retained until the respective subsidiaries are sold or otherwise disposed of.

Movements in reserves

Movements in reserves are shown in the statements of changes in equity.

22 Segment information

The Group has 2 reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions have different locations, and are managed separately because they require different technology and marketing strategies. For each of the strategic divisions, the chief operating decision maker (CODM) reviews internal management reports on at least a quarterly basis. The following summary describes the operations in each of the Group's reportable segments.

Segment 1 Thailand Segment 2 Others

Revenue and operating results of segment in financial statements for the years ended 31 December 2018 and 2017 are shown as follows;

| | Thailand | Others | Eliminate | Net |
|---------------------------------|-------------|------------|-----------|-------------|

Defined benefit plans

Details of the defined benefit plans are in note 18.

Defined contribution plans

The defined contribution plans comprise provident funds established by the Group for its employees. Membership to the funds is on a voluntary basis. Contributions are made monthly by 3% of their basic salaries and by the Company at rate 3% of the employees' basic salaries. The provident funds are registered with the Ministry of Finance as juristic entities and are managed by licensed Fund Managers.

25 Expenses by nature

The statements of comprehensive income include an analysis of expenses by function. Expenses by nature disclosed in accordance with the requirements of various TFRS were as follows:

| | Consolidated | | Separate | | |

27 Earnings per share

Basic earnings per share

The calculations of basic earnings per share for the years ended 31 December 2018 and 2017 were based on the profit for the years attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding during the years as follows:

| | Consolidated financial statements | | Separate financial statements | |
|--|-----------------------------------|-------------|----------------------------------|-------------|
| | 2018 | 2017 | 2018 | 2017 |
| | 2016 (In | | | |
| Profit for the year attributable to | | | | |
| ordinary shareholders of the Company | | | | |
| (basic) | 351,551 | 401,144 | 335,264 | 419,801 |
| Number of ordinary shares outstanding | | | | |
| at 1 January | 303,080 | 301,788 | 303,080 | 301,788 |
| Effect of issuing shares options exercised | 1,253 | 88 1 | 1,253 | 88 1 |
| Weighted average number of ordinary | | | | |
| shares outstanding (basic) | 304,333 | 302,669 | 304,333 | 302,669 |
| Earnings per share (basic) (in Baht) | 1.16 | 1.33 | 1.10 | 1.39 |

Diluted earnings per share

The calculations of diluted earnings per share for the years ended 31 December 2018 and 2017 were based on the profit for the years attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding during the years after adjusting for the effects of all dilutive potential ordinary shares as follows:

| | Consolidated financial statements | | Separate financial statements | | |
|---|------------------------------------|---------|-------------------------------|---------|--|
| | | | | | |
| | 2018 | 2017 | 2018 | 2017 | |
| | (in thousand Baht/thousand shares) | | | | |
| Profit attributable to ordinary | | | | | |
| shareholders of the Company (basic) | 351,551 | 401,144 | 335,264 | 419,801 | |
| Weighted average number of ordinary | | | | | |
| shares outstanding (basic) | 304,333 | 302,669 | 304,333 | 302,669 | |
| Effect of issuing shares options exercised | - | 806 | - | 806 | |
| Weighted average number of ordinary shares outstanding | | | | | |
| (diluted) | 304,333 | 303,475 | 304,333 | 303,475 | |
| Earnings per share (diluted) (in Baht) | 1.16 | 1.32 | 1.10 | 1.38 | |

The exercise price, including the fair value, of share based payment is higher than the average market price of the ordinary shares for the year ended 31 December 2018. Effect of share options issued were not included in the calculation of diluted earnings per share.

28 Dividend

At the annual general meeting of the shareholders of the Company held on 26 April 2018, the shareholders approved the appropriation of dividends from annual net profit for the year 2017 of Baht 0.69 per share, amounting to Baht 210.01 million. The dividend was paid to shareholders in May 2018.

At the annual general meeting of the shareholders of the Company held on 26 April 2017, the shareholders approved the appropriation of dividends from annual net profit for the year 2016 of Baht 0.54 per share, amounting to Baht 163.27 million. The dividend was paid to shareholders in May 2017.

29 Financial instruments

Financial risk management policies

The Group is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties. The Group does not hold or issue derivatives for speculative or trading purposes.

Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board monitors the return on capital, which the Group defines as result from operating activities divided by total shareholder's equity, excluding non-controlling interests and also monitors the level of dividends to ordinary shareholders.

Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's operations and its cash flows because the effective interest rates of loans receivable are mainly fixed. The Group is primarily exposed to interest rate risk from its borrowings.

The effective interest rates of interest-bearing financial liabilities as at 31 December and the periods in which those liabilities mature were as follows:

| | Consolidated financial statements After 1 year | | | | |
|---|--|------------------|--------------------------------|----------------------|-------|
| | Note | Interest Rate | Within 1 year (in thousa | but within 5 year | Total |
| 2018 Current Short-term loan from related parties | 4 | Market rate | 3,984 | <u>-</u> | 3,984 |
| 2017 Current Short-term loan from related parties | 4 | Market rate | 4,185 | <u></u> | 4,185 |

Foreign currency risk

The Group is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies. The Group primarily utilises forward exchange contracts with maturities of less than one year to hedge such financial assets denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated sales, denominated in foreign currencies, for the subsequent period.

At 31 December, the Group and the Company were exposed to foreign currency risk in respect of financial assets and liabilities denominated in the following currencies:

| | | | Consolidated financial statements | | Separate financial statements | |
|------------------------------|------|--------------------|-----------------------------------|----------|----------------------------------|--|
| | Note | 2018 | 2017 | 2018 | 2017 | |
| | | (in thousand Baht) | | | | |
| United States Dollars | | | | | | |
| Cash and cash equivalents | 5 | 26 | 26 | 2 | 2 | |
| Trade accounts receivable | 7 | 28,476 | 15,678 | 28,476 | 15,678 | |
| Trade accounts payable | 16 | (2,701) | (7,217) | (2,701) | (7,217) | |
| Other payables | 17 | (23,663) | (32,296) | (23,619) | (34,246) | |
| Gross balance sheet exposure | | 2,138 | (23,809) | 2,158 | (25,783) | |
| Currency forwards sales | | (28,476) | (15,678) | (28,476) | (15,678) | |
| Net exposure | | (26,338) | (39,487) | (26,318) | (41,461) | |

Surplus currency forwards sales is for hedging the currency risk on the estimated forecast sales.

Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Group as and when they fall due.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position. However, due to the large number of parties comprising the Group's customer base, Management does not anticipate material losses from its debt collection.

Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

Carrying amount and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

| | Consolidated financial statements Carrying Fair Value amount Level 2 | | Separate financial statements Carrying Fair Value amount Level 2 | |
|---|--|------------|--|---------|
| 247 | | (in thousa | na Bant) | |
| 31 December 2018 | | | | |
| Financial assets measured at fair value | | | | |
| Debt securities held for trading | 915,805 | 915,805 | 915,805 | 915,805 |
| Financial assets not measured at fair value Foreign currency forward contract | 1,737 | 1,059 | 1,737 | 1,059 |
| 31 December 2017 | | | | |
| Financial assets measured at fair value Debt securities held for trading | 905,212 | 905,212 | 905,212 | 905,212 |
| Financial assets not measured at fair value | | | | |
| Foreign currency forward contract | 3,125 | 1,971 | 3,125 | 1,971 |

Fair values of financial assets and liabilities

The fair values of the current portion of financial assets and liabilities are taken to approximate the carrying values due to the relatively short-term maturity of these financial instruments.

The fair values of finance lease liabilities approximate their carrying amounts as the market rate is close to the contract rate.

The Group has considered the level 2 fair value of debt securities held for trading based on net asset value as at the measurement date according to the fund's information released to the public as at 31 December 2018 and 2017.

Level 2 fair values for simple over-the-counter derivative financial instruments are based on broker quotes. Fair values reflect the credit risk of the instrument.

33 Thai Financial Reporting Standards (TFRS) not yet adopted

A number of new and revised TFRS which relevant to the Group's operations are expected to have significant impact on the consolidated and separate financial statements on the date of initial application. Those TFRS become effective for annual financial reporting periods beginning on or after 1 January of the following years.

| TFRS | Торіс | Effective |
|-----------|---|-----------|
| TFRS 7* | Financial Instruments: Disclosures | 2020 |
| TFRS 9* | Financial Instruments | 2020 |
| TFRS 15 | Revenue from Contracts with Customers | 2019 |
| TFRS 16 | Leases | 2020 |
| TAS 32* | Financial Instruments: Presentation | 2020 |
| TFRIC 16* | Hedges of a Net Investment in a Foreign Operation | 2020 |
| TFRIC 19* | Extinguishing Financial Liabilities with Equity Instruments | 2020 |
| TFRIC 22 | Foreign Currency Transactions and Advance Consideration | 2019 |

^{*} TFRS - Financial instruments standards

(a) TFRS 15 Revenue from Contracts with Customers

Sales of goods.

Revenue is currently recognised when the significant risks and rewards of ownership have been transferred to the buyer. Under TFRS 15, revenue will be recognised when a customer obtains control of the goods.

Transition options

The Group / Company plans to adopt TFRS 15. The effect of initially applying this standard at the date of initial application (1 January 2019) resulting in, the Group's revenue from sale of goods for the year 2018 will decrease by Baht 12.23 million and distribution costs will decrease by the same amount.

(b) TFRS - Financial instruments standards

These TFRS establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting.

Management is presently considering the potential impact of adopting and initially applying TFRS – Financial instruments standards on the consolidated and separate financial statements.
